

Your vintage themed event

Be a guest at your
own event

Our mission is to exceed your expectations and our vision is an event both unique and memorable.

Every one of our events is tailor-made for each customer.

We immerse ourselves into their company mindset in order to create the best event.

Venue

The “industrial meets vintage” event is set in an industrial warehouse in the Barcelona docks.

It is a venue of 600m² that we transform into an unconventional party place with a variety of food trucks, a chill out area, bar and long market-like tables.

From the chill out terrace there is an unusual and beautiful view of Barcelona. Closed to the public, it is the only place that offers this aspect of the city with occasional passing boats as well!

Catering

We have hand-picked the best food trucks from the Barcelona region to get exceptional quality and service for this amazing event.

Chicken korma, bombay bombs, chicken chipotle tacos, local dishes, ceviche and more.

Everybody gets to try 2 dishes per food truck.

A stylish caravan bar is open during the whole event for even more fun.

Entertainment

To get the party going there is a live band that will be playing from 10pm till midnight. This is followed by a DJ until the end of the party.

During the evening there is a painting show from a well known Barcelona street artist. Then for some great fun interactive entertainment, everyone can have a go at graffiti themselves.

Everybody will love the photobooth! With a huge array of different props, you can get your picture taken with your favourite colleagues and take a copy home as a souvenir. The photobooth is open all night!

Options

Transport to and from the venue
by private bus

Photographer / video footage

Branding material, decor with
company logo, gifts

Other entertainment (please see
website for our selection)
